## A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.
2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

## POLK'S SOUTH BEND

Directory of Householders, Occupants of Office Buildings and  
Other Business Places, Including a Complete  
Street and Avenue Guide

### 1956

Copyright, 1956 by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

By the decimal system of numbering one hundred numbers are allotted to each square. The center of the city for street numbering purposes is at the junction of Washington avenue and Michigan street. Streets running north and south are numbered north and south from Washington avenue, while those running east and west are numbered east and west from Michigan street. The numbers begin with 101 and alternate from one side of the street to the other. Each square begins with an additional hundred; thus, 101, 201, etc. In some instances the blocks are longer, there being no intersecting streets, and the numbers then run higher. The odd numbers are on the north side of the streets running east and west, and on the west side of the streets running north and south. All other streets not commencing at Washington avenue or Michigan street are numbered in accordance with this system.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes nor responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Δ preceding names denotes houses and places of business having telephones.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the use of the publishers, and have no other significance. In each case the Publishers tried diligently by various means, to obtain information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal as mailed and the telephone used when possible.)

# DIRECTORY SYMBOLS AND DESIGNATIONS

**I**N ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

## WHY A *Buyers' Guide?*

★ It is customary to include a Buyers' Guide in the City Directory because:

*It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.*

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . **EXTENDED**

# The ASSOCIATION OF COMMERCE

DIVISION OF C. K. TURK CORPORATION

Fabric is used in practically every industry as a product or an accessory to provide better performance, longer life and added sales appeal.

You, too, may be able to use fabric profitably in more applications than you realize. Tell us about your needs — we can give you ideas, suggestions and development help. We keep up with the latest textile and treating improvements and can assist you without obligation.

**TURK'S "PACKAGED" ENGINEERING PLAN OFFERS YOU THESE SERVICES!**

## PRODUCT DESIGN . . .

the first step toward building functional advantages and economies into your industrial fabric parts or products is to call in a Turk Engineer for competent design counsel.

## FABRIC SELECTION . . .

Turk's broad knowledge and dolly contacts in the field of fabrics will prove invaluable in selecting just the right fabric for your product.

## PRODUCT PRODUCTION . . .

modern methods and machines combine with the skill of experienced workers to make the fabric products produced by Turk the very highest in quality and satisfaction.

## *Complete Financial Information . . .*

Published Semi-Annually,  
March and September

POLK'S BANK DIRECTORY reports December 31 and June 30 status of the 14,700 banks operating throughout the United States. Each listing includes the statement, officers, directors, correspondents and other general data of banks.

Investment bankers are listed following the banks in each city. A separate section lists legal reserve Life Insurance Companies. Other sections list the latest available information on banks in other countries.

This twelve pound volume, with 2800 pages of accurate, up-to-date information is the recognized standard throughout the world for banking facts. It is easier to use than a dictionary. Price \$27.50 a copy, or \$20.00 an issue on term contract.

## CAUTION . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

### ***Out of Sight • Out of Mind • Out of Business***

\*

 The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

\*

The City Directory is the natural medium for keeping a business or product name in the spotlight. Insist on being well represented in its pages

### WHY A BUYERS' GUIDE ?

*★ It is customary to include a Buyers' Guide in the City Directory because : : :*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

*The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED*

### WANT A LIST OF HOME BUYERS?

To sell merchandise or services to new home buyers you must know who they are and where they live. R. L. Polk & Co. can supply you with weekly lists of new home owners. Information is available by county in Metropolitan New York and northern New Jersey. Through such lists you have advance information of those who have purchased or are building homes for personal occupancy and have not yet taken possession. List information includes present address and phone number, approximate date of removal and location of newly purchased property and price paid. Ask us about this unique listing service.

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.
